DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 22 June 2024 at 05:22 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Generally Low levels of air pollution are expected. However, as warm sunny spells develop for many areas though today, combined with light winds, there is a chance of locally elevated areas of pollution, especially for eastern areas of England.

Tomorrow: Predominantly Low levels of air pollution are expected. However, as warm sunny spells develop for many areas though Sunday, combined with light winds, there is again a chance of locally elevated areas of pollution, especially for eastern areas of England.

Outlook: Areas of Moderate pollution are forecast to develop, most likely across eastern England. Otherwise Low levels of air pollution are expected.
